- Analytics Manager at Avanade, London
- Organizer at DataWeekender conference
- Manager at Microsoft Fabric UK User Group

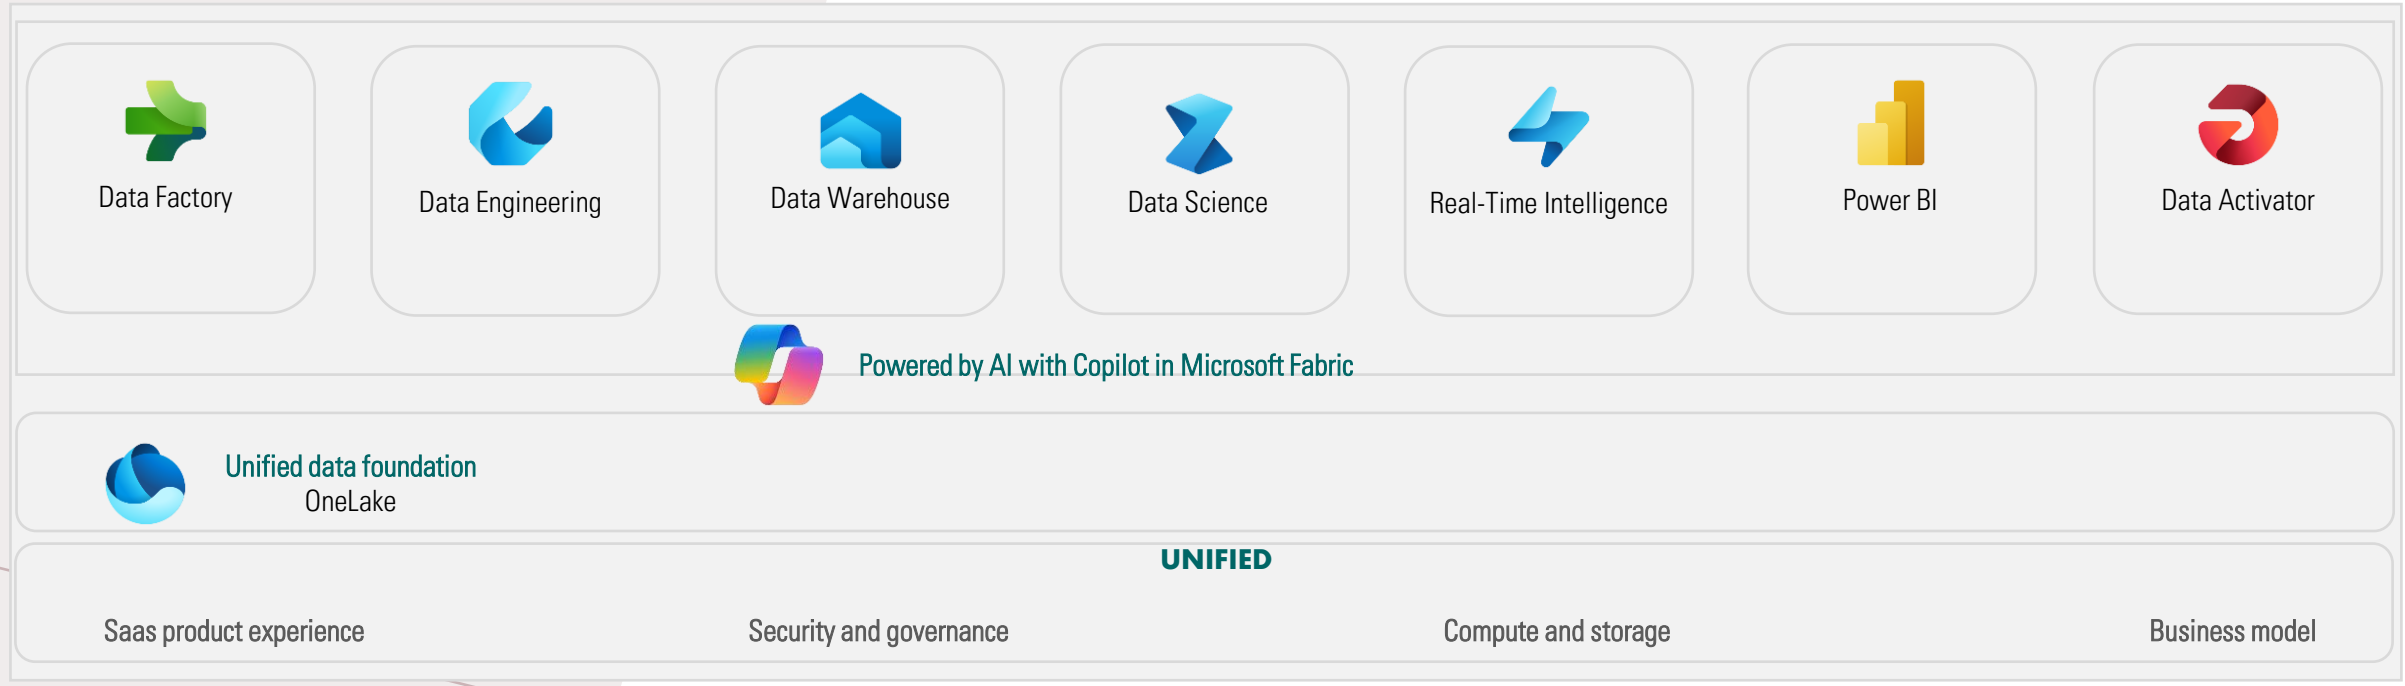
✅ Microsoft Certified: **Fabric Analytics Engineer Associate**

Fun Fact About Me:

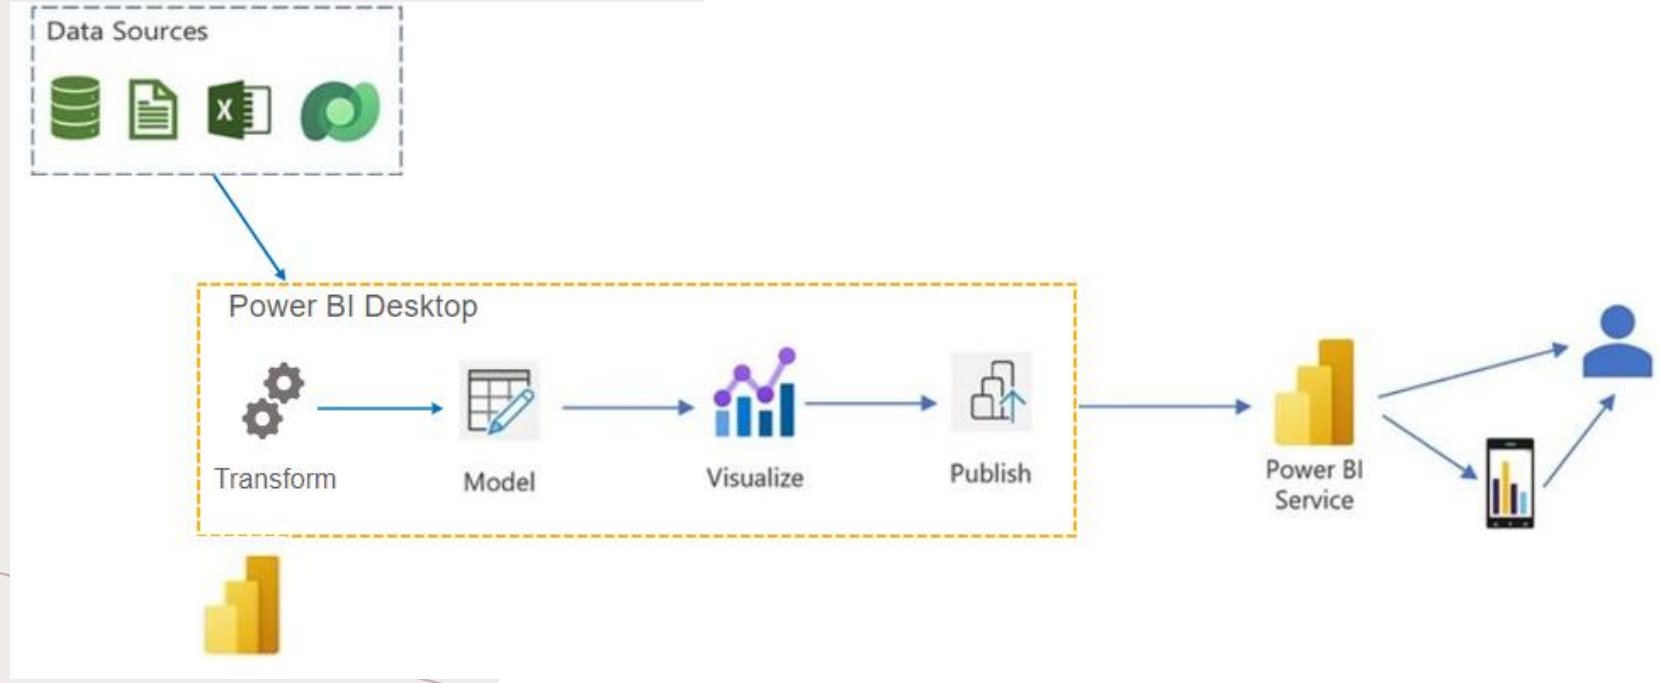
I am a painter and proudly call myself **'TechieArtist'** 😊

What Is Microsoft Fabric ?

- Unified Analytics Solution
- End-to-end analytical platform that brings together all the analytical capabilities



I am a Power BI Developer.
Does Microsoft Fabric change things for me when it comes to development?



What Microsoft Fabric got for Power BI Developers?

How can MS Fabric help Power BI developers on existing process?

- the new horizon of skills to explore - Data Engineering, Data Warehousing bits
- DirectLake mode for better performance
- Can now directly build end-to-end solution in web interface
- Better for collaboration with other teams

Demo 1 – Unchanged Power BI Publish Process

Demo 2 – Dataflow Gen2 Overview

Demo 3 – Acquiring New Skills to create optimized data load
